Hello Everyone,

I hope you're staying safe, healthy, and warm during these cold winter days! We're almost at the end of semester one.

The last few days of the semester are dedicated to Credit Rescue. During these days, January 28 to February 1<sup>st</sup>, students who need extra support to earn their credit will work closely with their classroom teacher to finish the course expectations.

Please review your child's academic progress with them and please feel free to connect with the classroom teacher for further communication on what can be done during these Credit Rescue days to ensure your child finishes the course with success. This is incredibly important to the success of all students, and your attention is critical in this manner. On these special days, attendance will be taken for all students; please see our schedule when students need to sign in remotely into their classrooms. Thank you for your assistance and support.

Wednesday February 2 is a PA day, so there is no school for all students. Our staff will be preparing for the start of Semester 2, which begins on February 3<sup>rd</sup>. Our school Board has made the decision to return to four periods per day. Please see our website for the daily schedule and our school calendar for the upcoming semester.

Under the current conditions and circumstances, we continue to take all necessary steps to keep everyone safe.

The self-assessment must still be done daily for all staff and students. We urge everyone to be responsible and if you are sick, please stay home and follow [Toronto Public Health recommendations](#).

With the start of the new semester, and more movement of students for one class to another, we're asking all staff and students to move to the right side of the hallways in their travels to their classes and do their best to social distance.

Masks must be always worn in the school, and we urge all students to sanitize their hands before entering any classroom. Our students are doing a remarkable job of doing their daily self-health assessment before coming to school and we are confident that this will continue a measure to keep us safe.

All in-person extra curricula activities are still on pause as we wait for the TPH and TDSB to provide directions as to when these activities can resume. We know our students and staff are patiently waiting for a favourable outcome.

Our next school council meeting is Tuesday, February 8 and all are welcome to attend. Our virtual meeting is scheduled for 6pm and those who wish to attend can contact Ms. Chambers at [northalbion@tdsb.on.ca](mailto:northalbion@tdsb.on.ca) before noon on February 8 and she will provide access to our zoom meeting later that afternoon.

We continue to use our school app and our website to post all school information. If you haven't downloaded our school app, we highly encourage you to do so. Here is the [link](#) where you can download the app.

Please continue to take care of yourself; we're here to help in any compacity.

Regards,
